**CURBSIDE PICK-UP**

**PROGRAM DETAILS**

**PICK UP  
QUICK**

We are implementing a curbside pick-up program, “PICK UP QUICK”, across properties where there is demand.

Designated parking areas labeled by color will be distributed throughout the properties, supporting convenient, quick-service pick-up for transactions that have been completed over the phone, digitally or via a third-party service (GrubHub, Caviar, DoorDash, etc).

Parking spaces within these nodes will be individually labeled so as to be easily identified between merchant and guest (e.g “green, space 2”).

Property maps identifying these areas will be available online and distributed at the property level.

Upon arrival, guests should be instructed to call the store to let them know of their whereabouts (e.g “green, space 2”); store employees will then be responsible for delivering the goods to that designated space.

## EXPLAINING OUR CURBSIDE PICK-UP

### PROGRAM TO CUSTOMERS

**Place an order.** Customers place an order completed over the phone, digitally or via a third-party service (GrubHub, Caviar, DoorDash, etc).

**Park in a pick-up spot.** Once on property, customers (or third-party providers) should park in a designated, color-labeled “PICK UP QUICK” parking area. Maps identifying these special parking areas are available online and on property. Spaces in these areas are numbered for easy identification.

**Call with your location.** Once parked, the customer should call the store and note the color and number of their parking spot.

**Sit tight.** An employee will deliver the order to the appropriate color/number space.
